M15	CASE 7 Schistosomiasis; CASE 27 Leishmaniasis; CASE 29 Malaria

For oral exam give the priority for the following cases esp. for those that are written in red. This prioritization is mostly important for students whose name is alphabetically comes first. DON'T WORRY ABOUT CASE NOS

CASE 11 Tuberculosis

CASE 29 Malaria

CASE 18 Meningitis

CASE 32 STI (Sexually Transmitted Infection)

CASE 42 Acute Gastro-Enteritis

CASE 2 Heart failure

CASE 3 Hypertension

CASE 14 Cushing syndrome

CASE 34 Rheumatic Fever

CASE 15 Hyper parathyroidism

CASE 1 Diabetes mellitus

CASE 16 Hypo parathyroidism

CASE 19 Asthma

CASE 13 Hypo thyroidism

CASE 5 Pneumonia

CASE 12 Hyper thyroidism

CASE 43 Bell's Palsy

NB; There were a total of 46 cases before our batch (2010E.C). in our batch new cases were asked among them

Rheumatoid arthritis

Viral and chronic hepatitis

Infective endocarditis

UTI

COPD

MI

CML

Bone fracture

Toxoplasmosis

GOOD LUCK

BY; ASSEFA MULU
