

GROSS ANATOMY OF THE UPPER LIMB

- BONES OF THE UPPER LIMB
- JOINTS OF THE UPPER LIMB
- SUPERFICIAL STRUCTURES OF UPPER LIMB AND BREAST
- PECTORAL, SUPERFICIAL BACK AND SHOULDER REGIONS
- AXILLA: BORDERS & CONTENTS
- POSTERIOR COMPARTMENT: ARM, FOREARM & DORSUM
- ANTERIOR COMPARTMENT: ARM, FOREARM & CUBITAL FOSSA
- PALM OF THE HAND

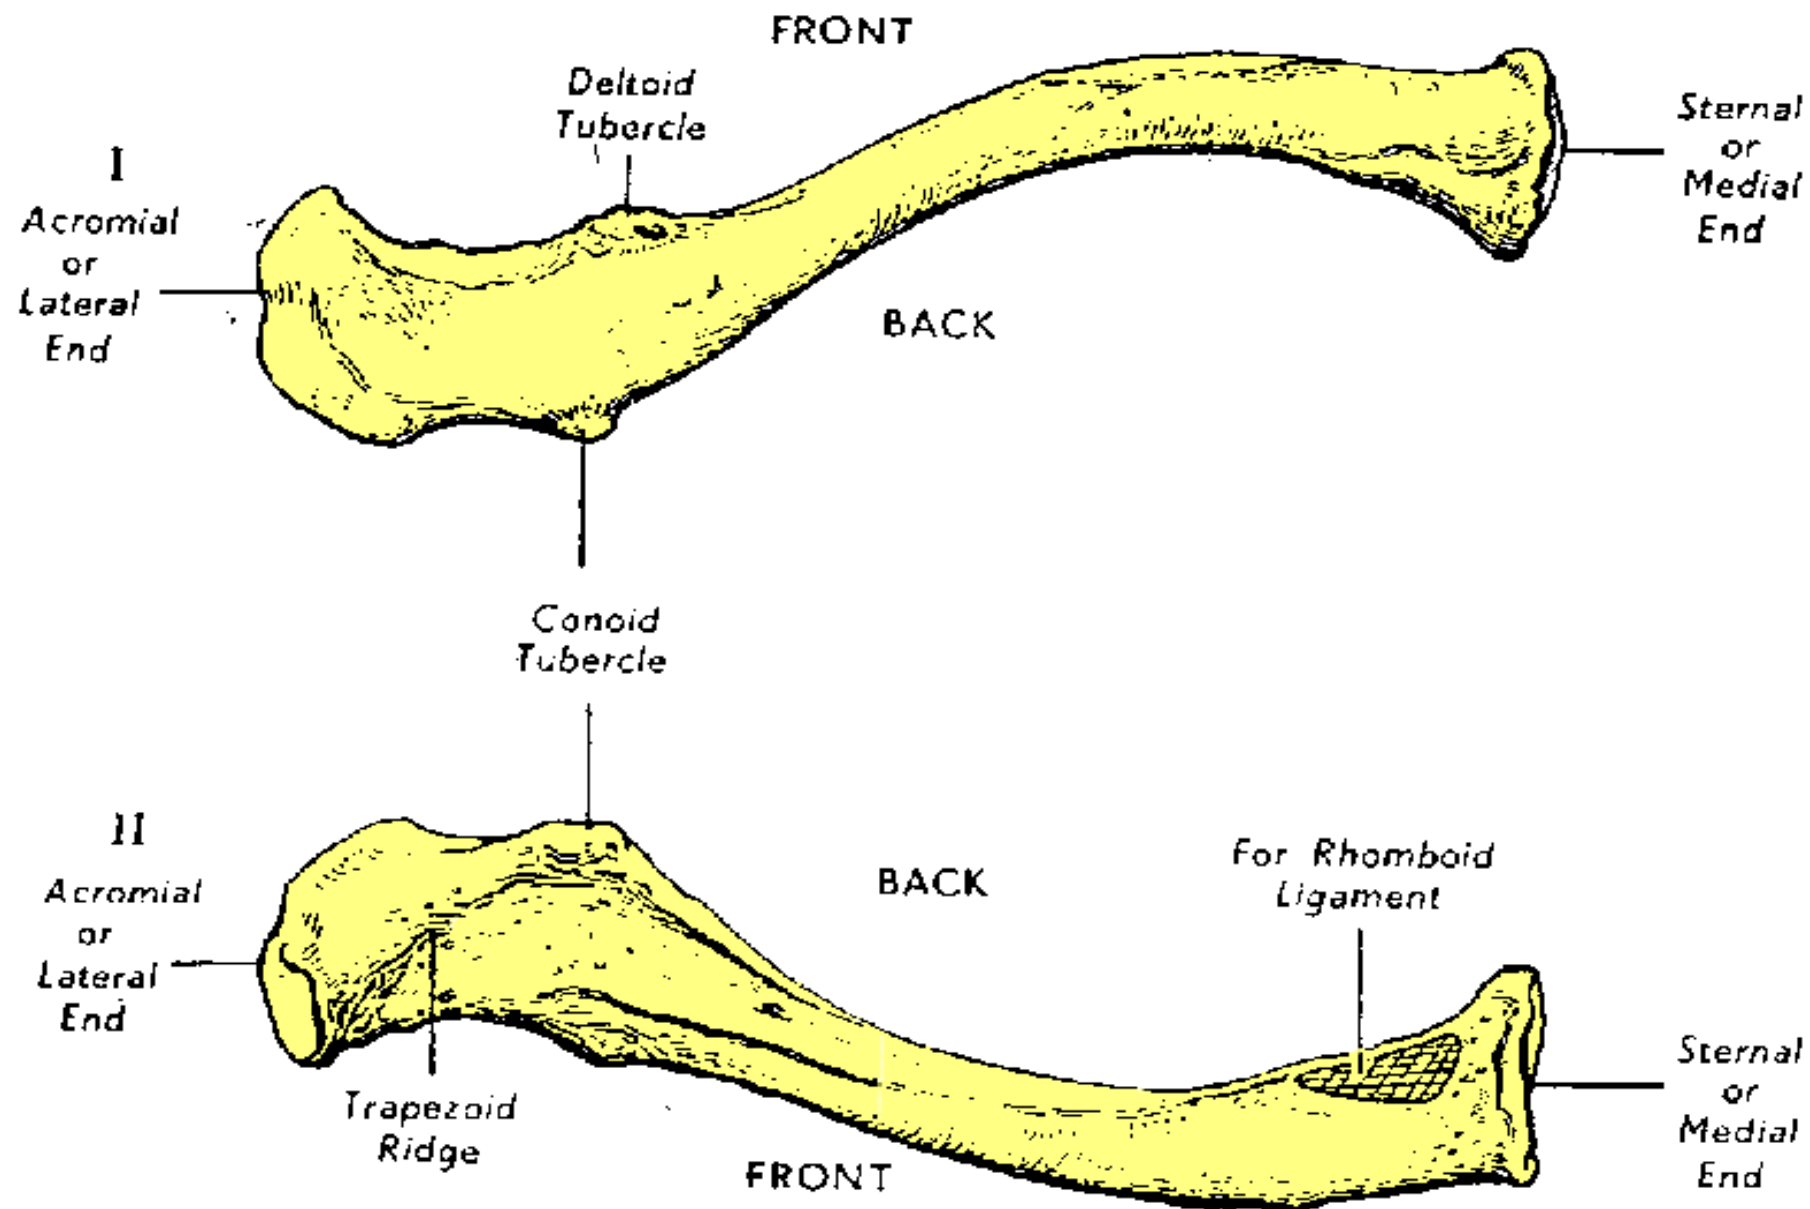

LECTURE ONE

BONES OF THE UPPER LIMB

Bones of the upper limb

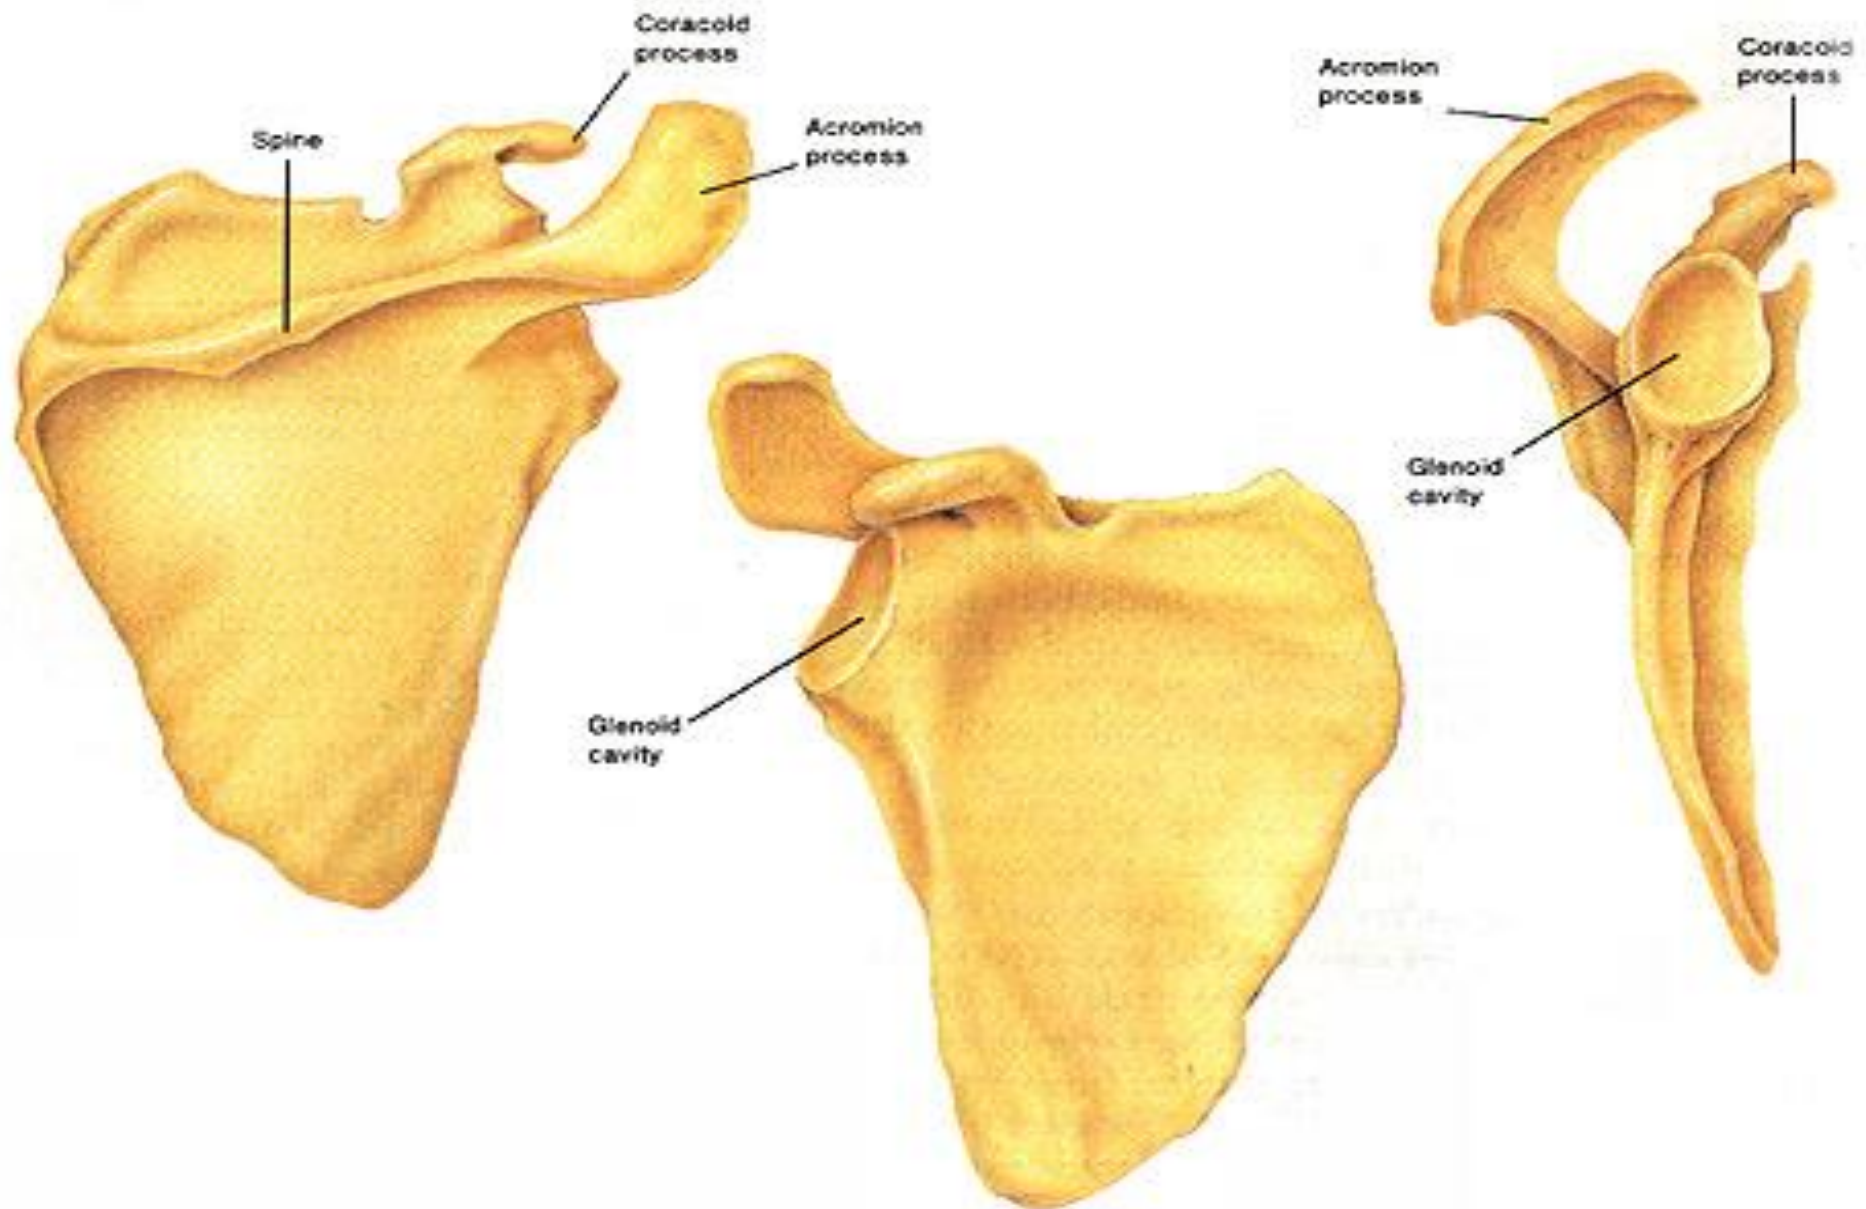

Left clavicle

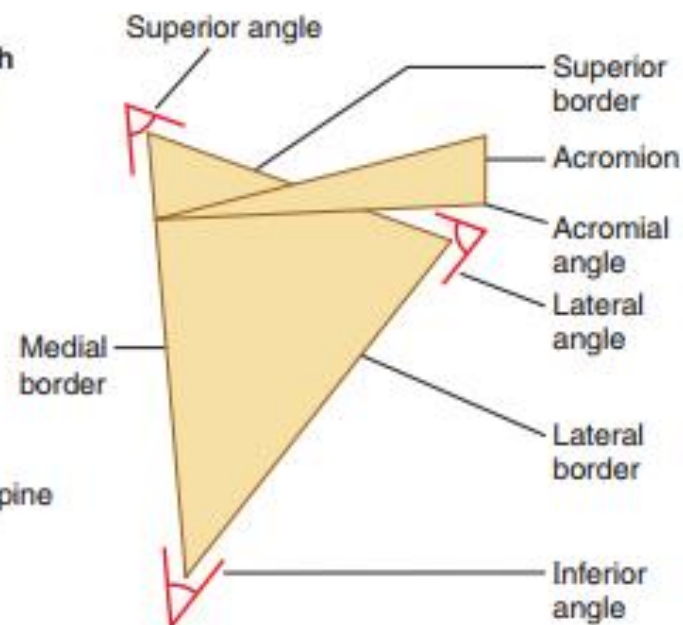

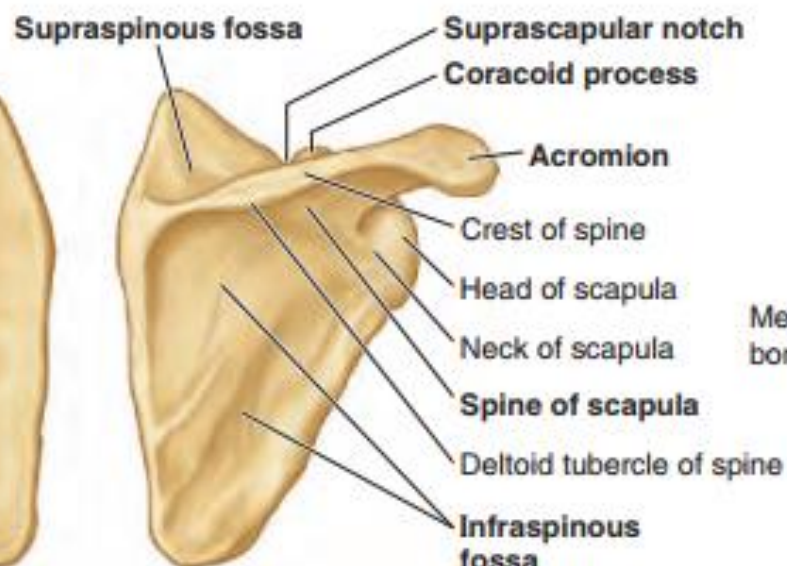

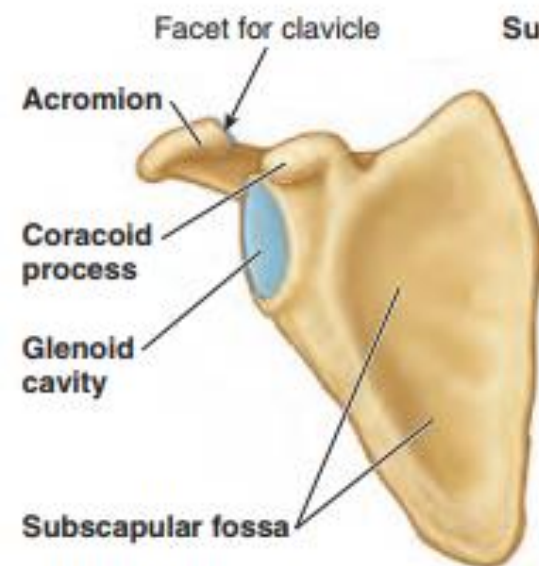

—Left Clavicle : I, from above ; II, from below.

Right Scapula: Posterior, anterior and lateral views

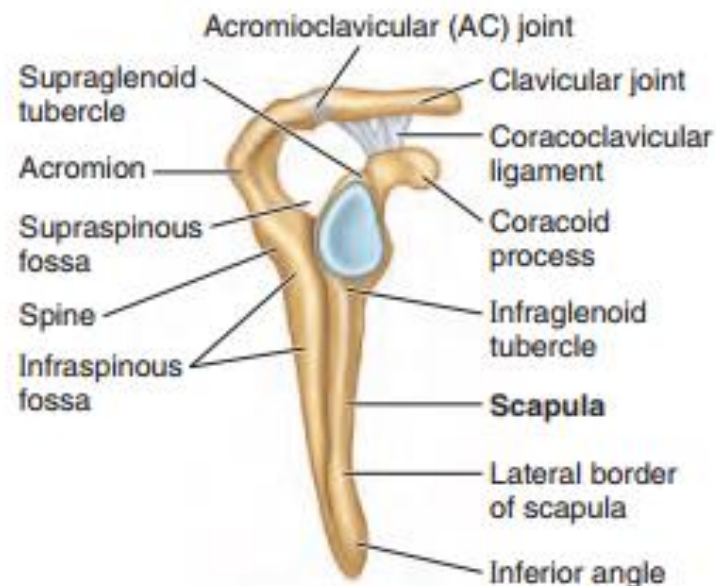

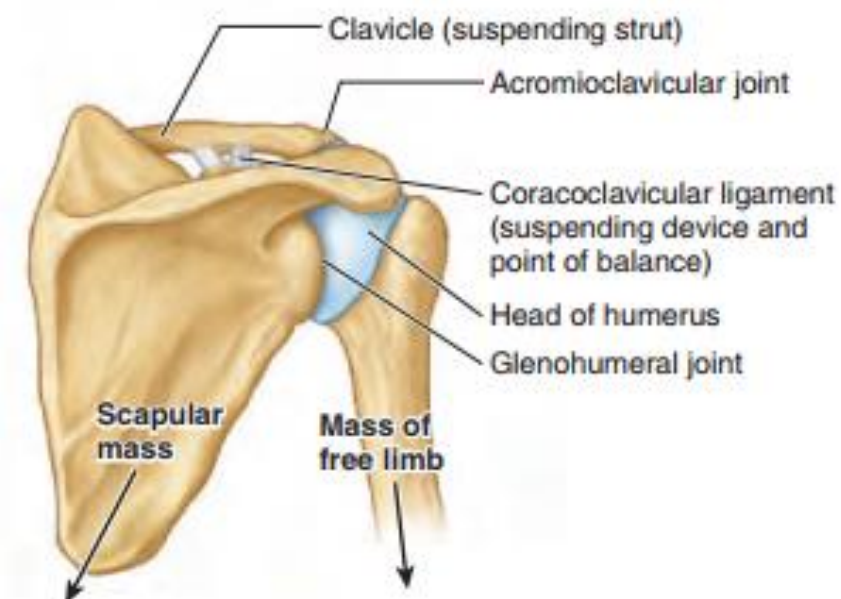

Right scapula

(A) Costal surface Posterior surface

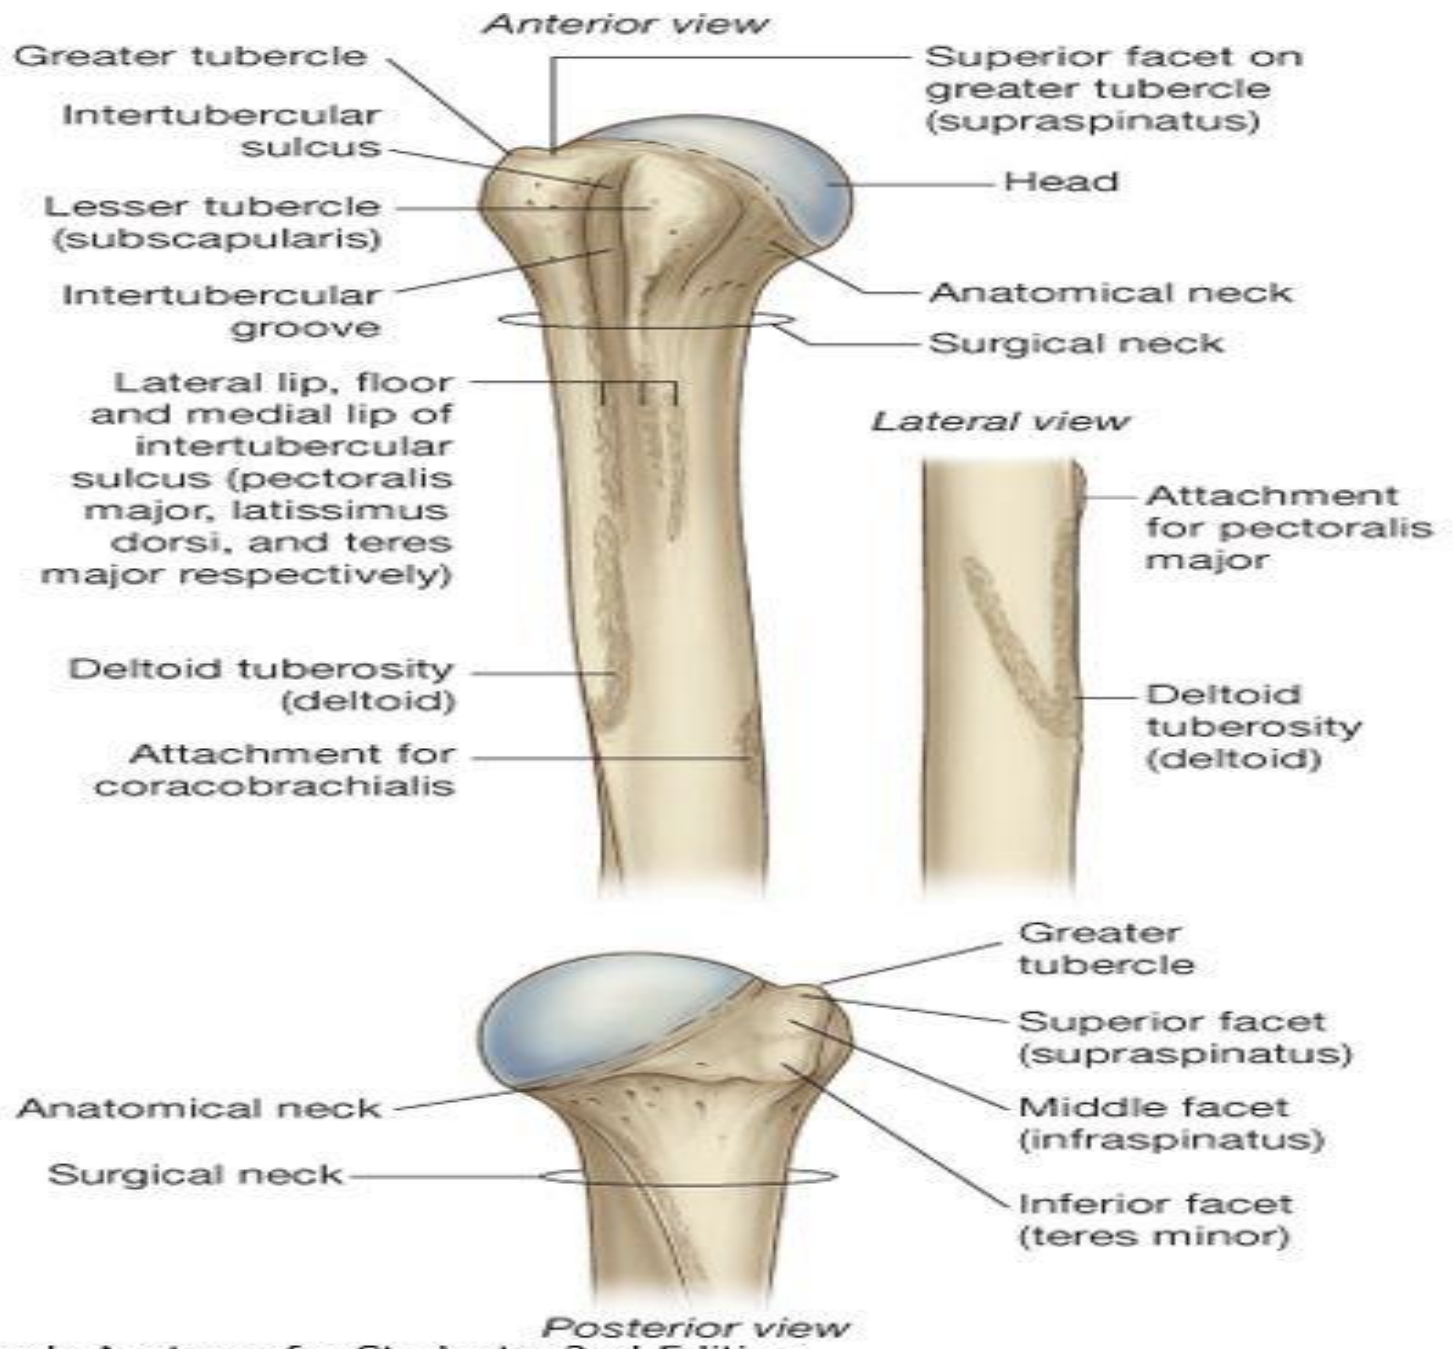

(B) Posterior surface

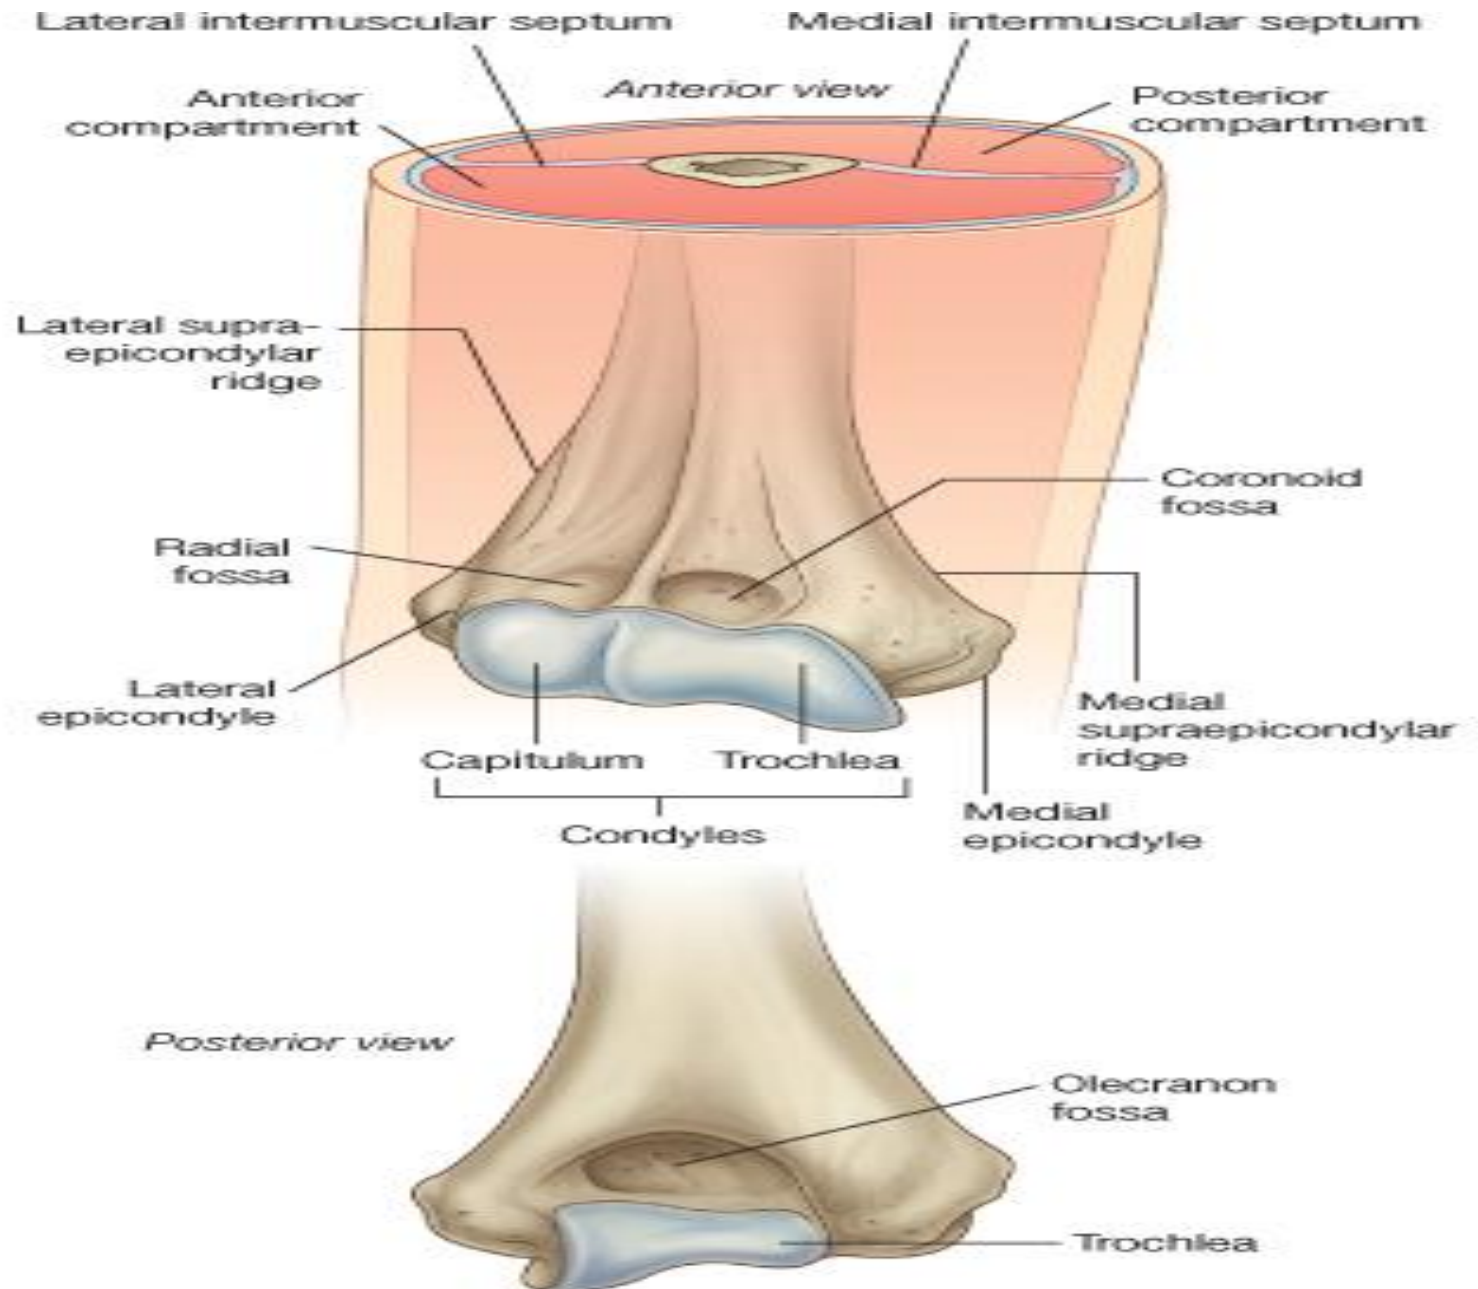

(C) Posterior view

Lateral view

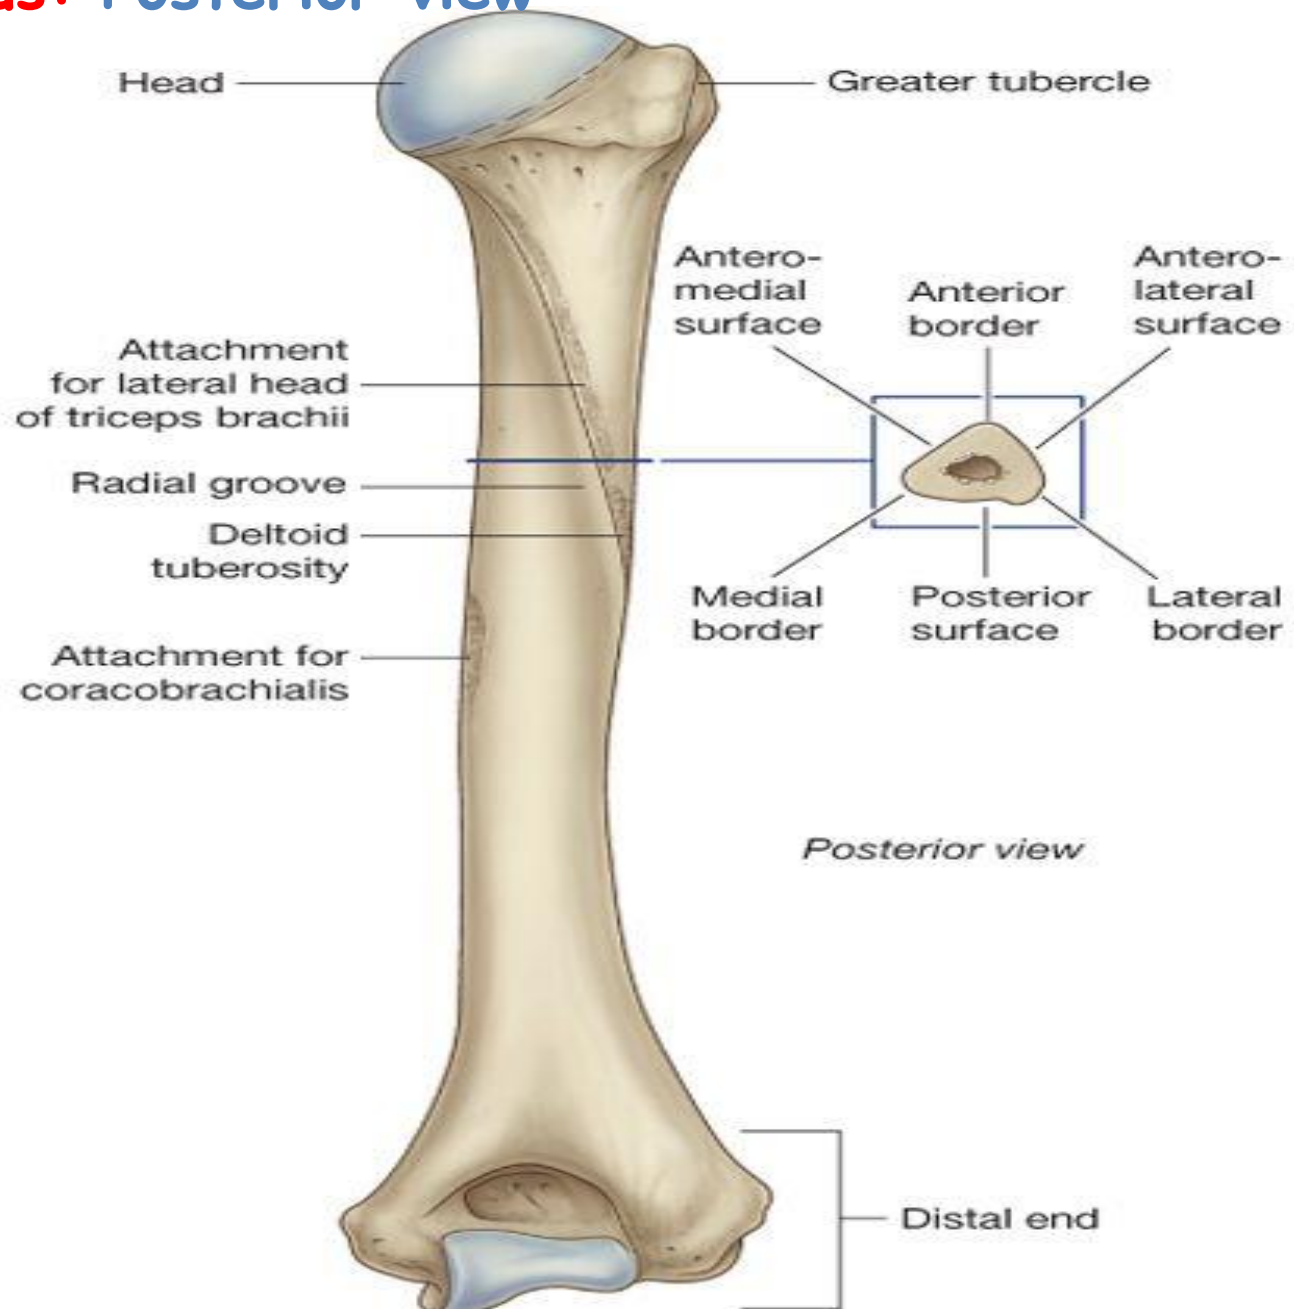

Right Humerus: proximal end

Right Humerus: distal end

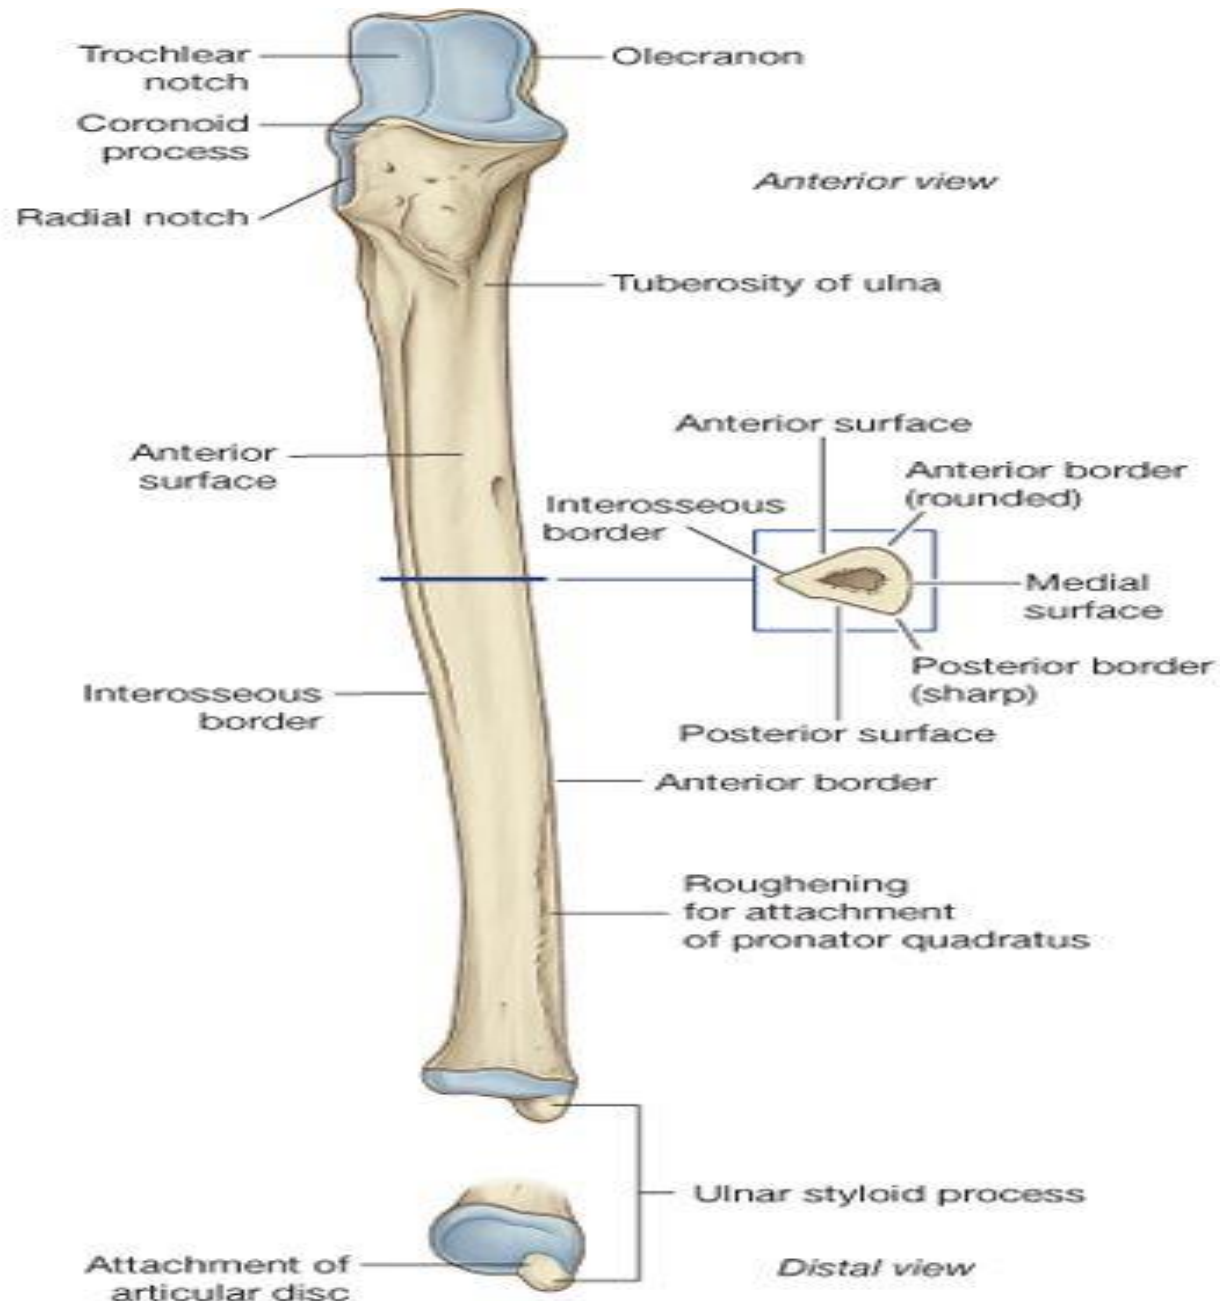

Right Humerus: Posterior view

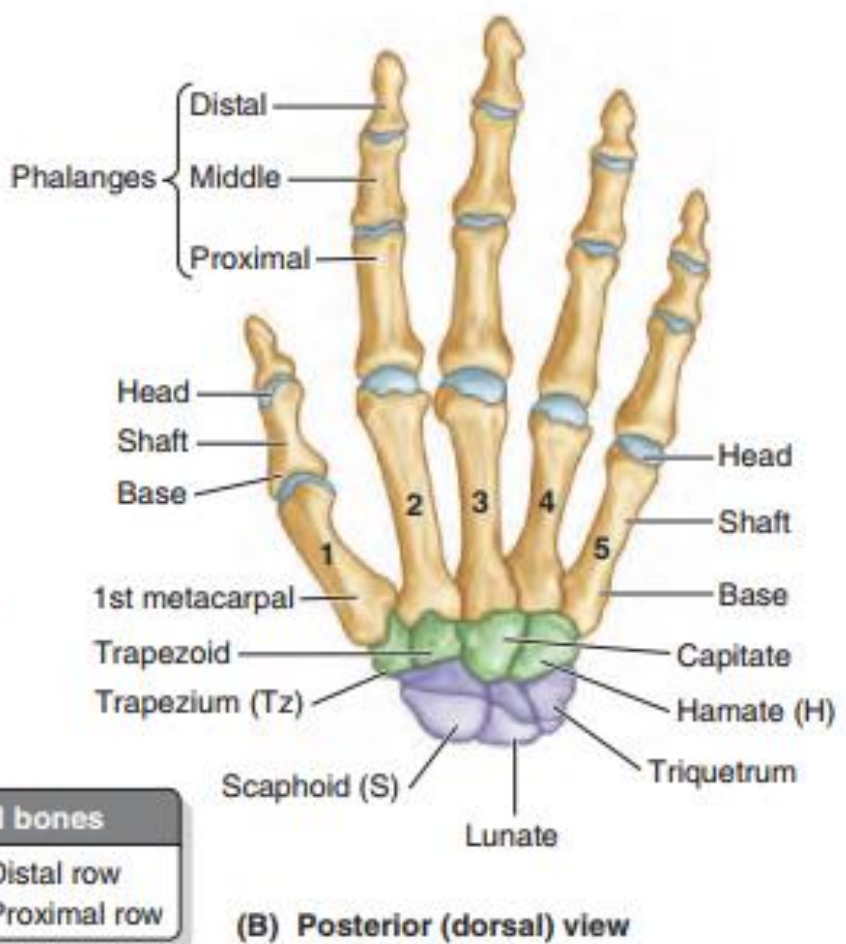

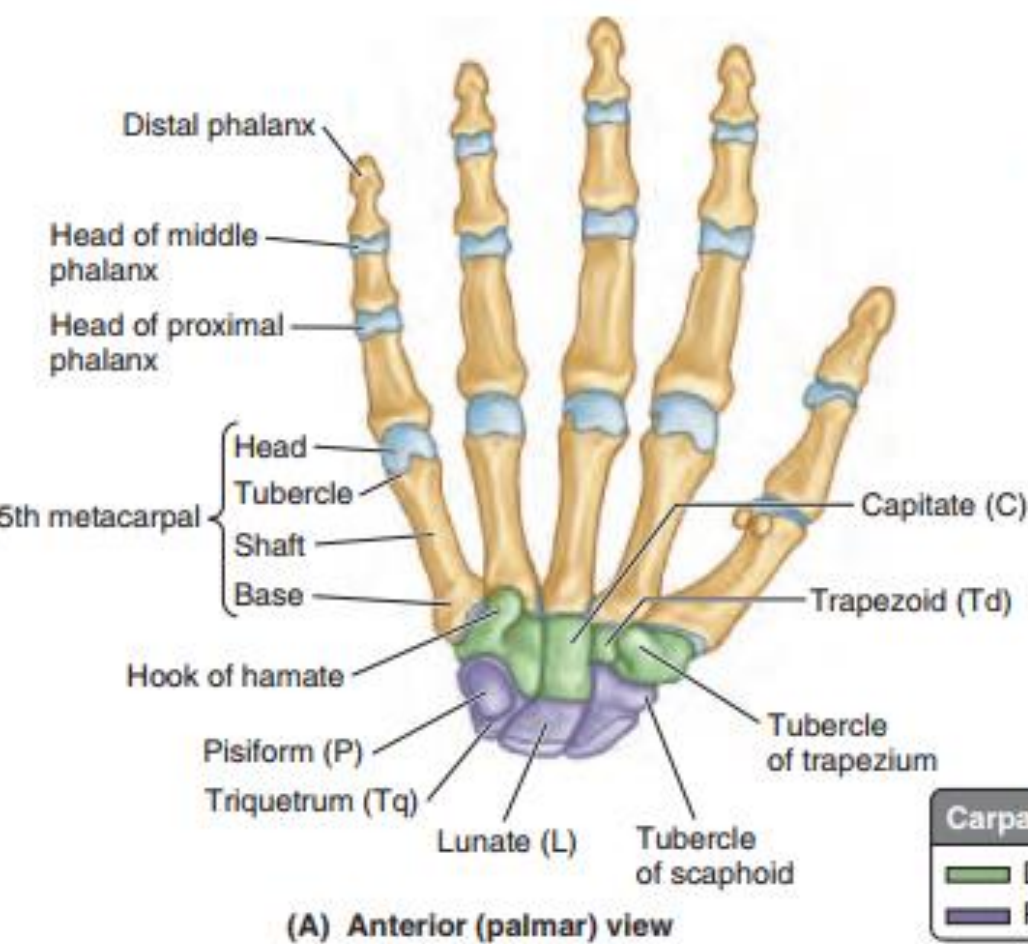

Right Radius: anterior view

Right Ulna: Anterior view

Bones of the Right Hand

Carpal bones

- Distal row
- Proximal row

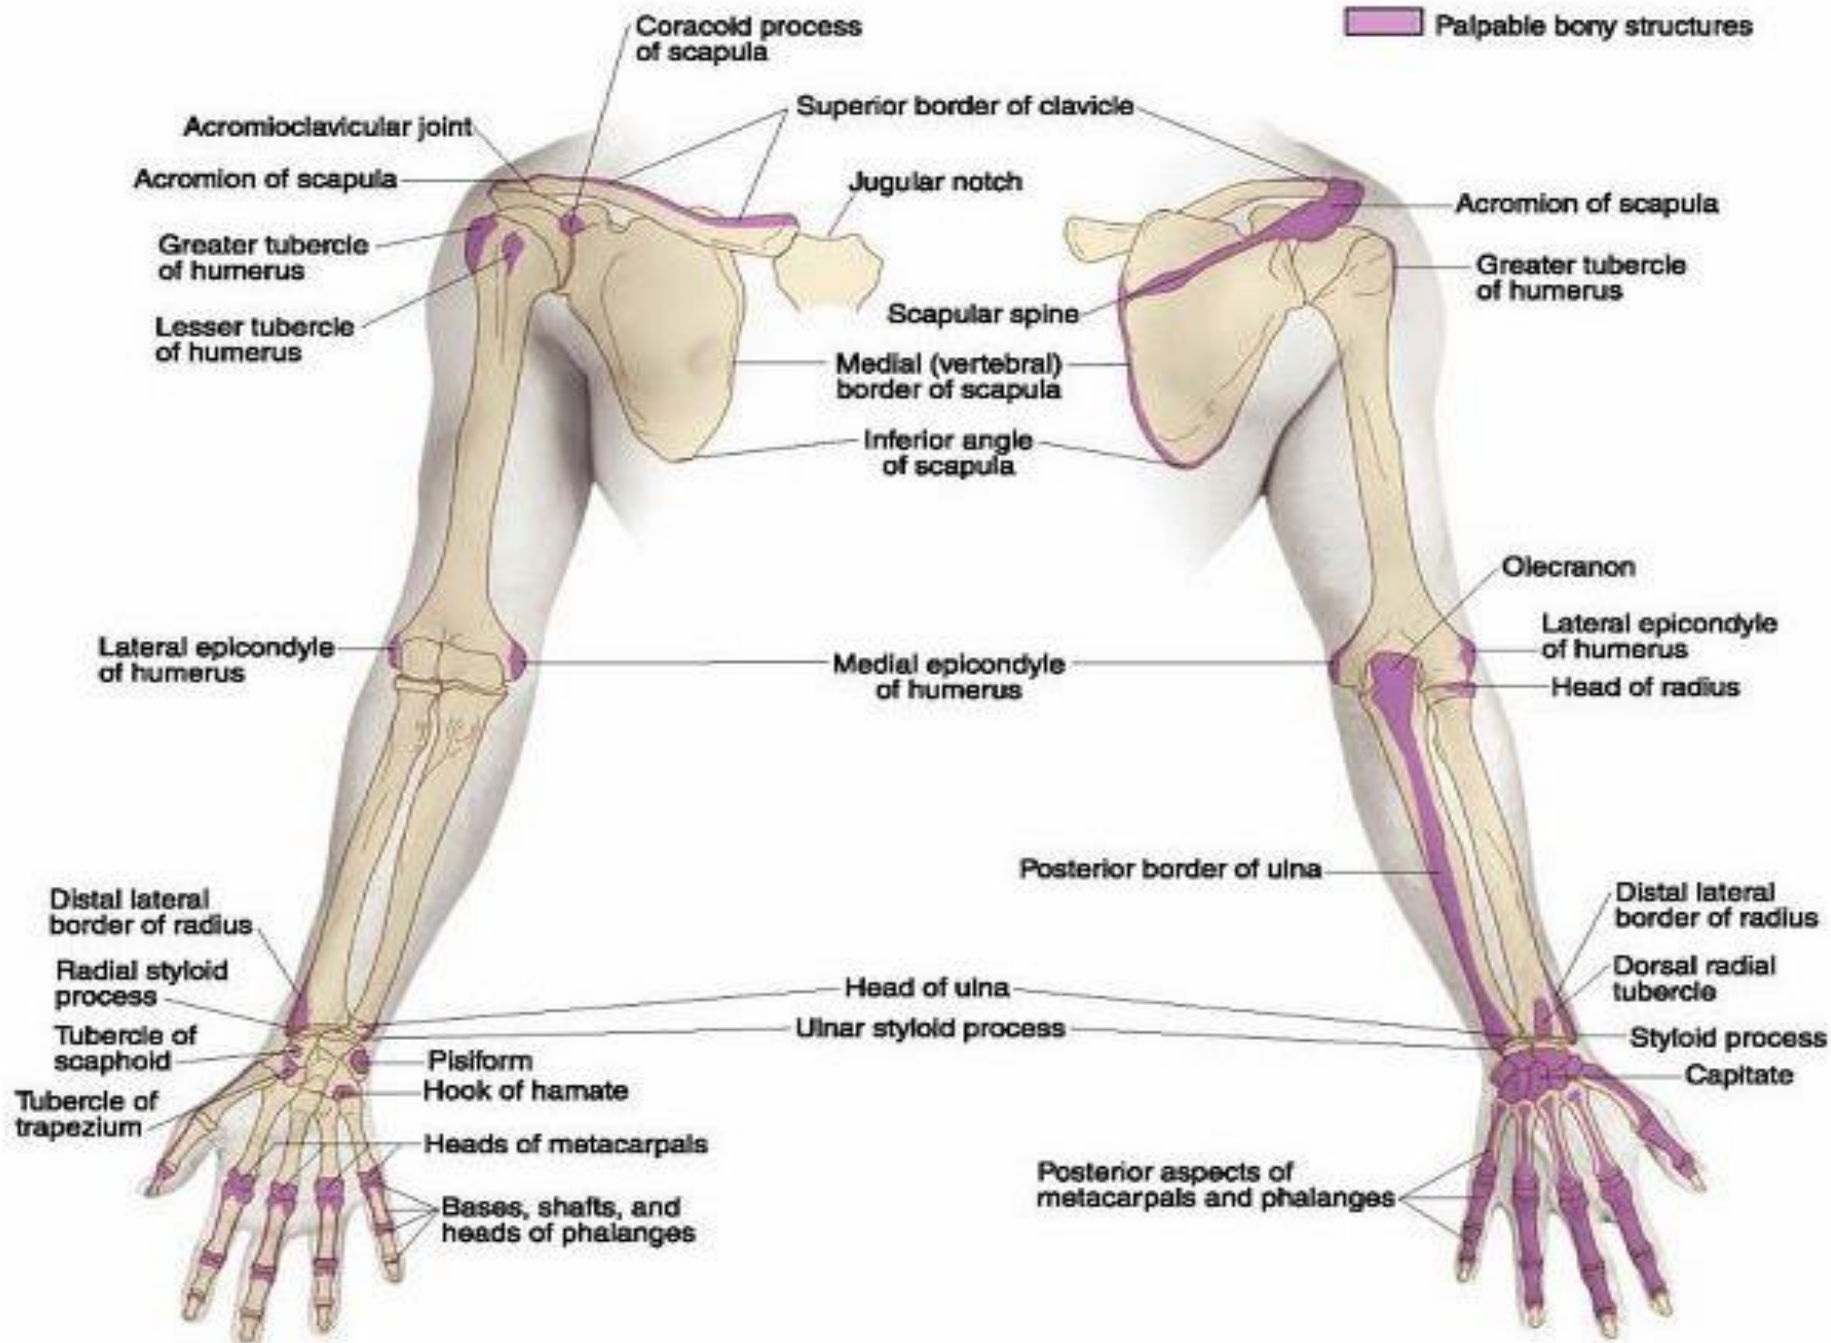

Surface anatomy of upper limb bones

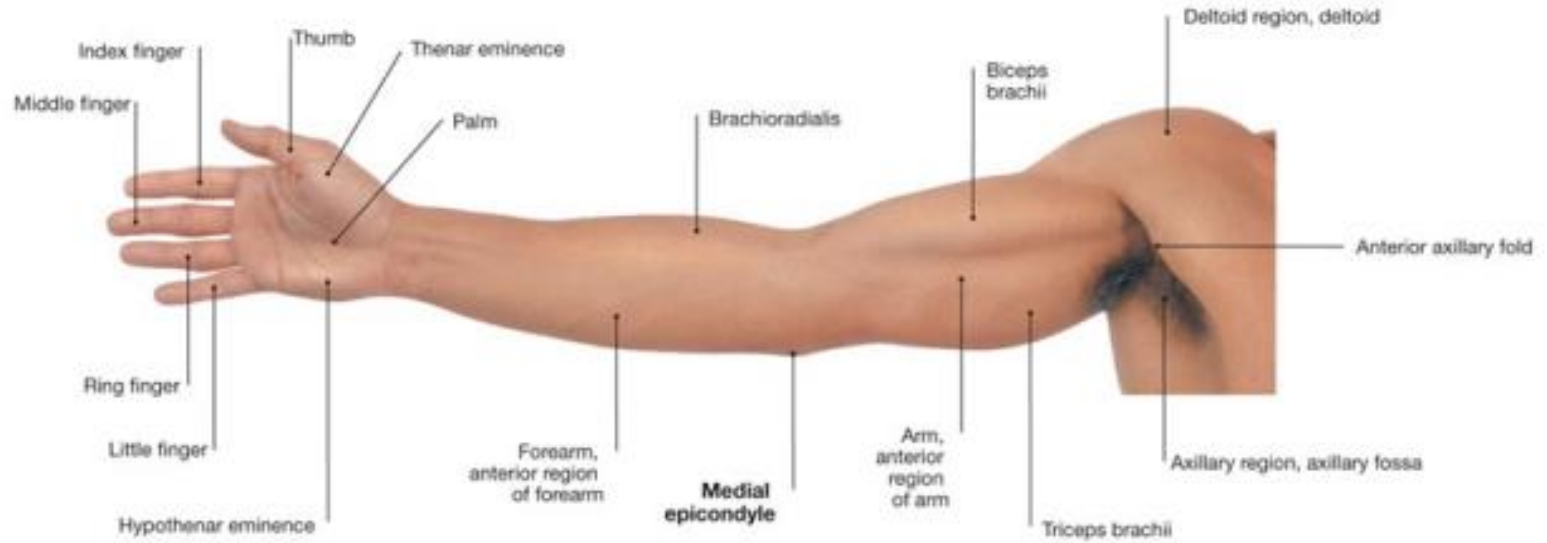

- The following structures are palpable
 - Jugular notch
 - Acromion
 - Coracoid process of scapula
 - Spine of scapula
 - Greater tubercle of humerus
 - Medial and lateral epicondyles
 - Olecranon
 - Styloid processes of radius and ulna
 - Pisiform

A. Anterior view

B. Posterior view

 Palpable bony structures
